## PTF DG\*5.3\*517

### Product Enhancements PTF functionality added to the <MAS Screen>

DG\*5.3\*517 introduced the functionality to the <MAS Screen> that will capture provider professional services provided at patient bedside during inpatient episodes of care. Users will enter these services, as CPT Records and the information will populate a new <801 Screen>. Users will access in list manager CPT Records. This functionality will operate in the same fashion as previous functionality of Patient Movements, Surgical Episodes, and Procedure Records. Included in the new option CPT Records user will be able to Add a CPT Record (I).

Users will be prompted for a DATE/TIME that must fall within the patient's admission and discharge date/time. Included in the enhancement users will be prompted to enter a Referring/Ordering Provider; a Rendering Provider; a Rendering Location and to Select an INPATIENT CPT CODE.

Once the INPATIENT CPT CODE is entered the user will be able to add up to two CPT modifiers; Quantity and a PRIMARY DIAGNOSIS code. If the patient has a Service Connected condition and/or an Environmental indicator identified in the Enrollment application, the user will be prompted to answer TREATMENT RELATED questions.

Was Treatment for an SC condition?  
Was Treatment related to Agent Orange exposure?

The SC/EI responses will be associated with the diagnosis code. The user may enter up to eight diagnosis codes that will be associated with the CPT professional service procedure code.

Select CPT RECORD DATE/TIME: 12/5/02@11 DEC 05, 2002@11:00 Are you adding 'DEC 05, 2002@11:00' as a new CPT RECORD DATE/TIME? No// Y (Yes)
REFERRING/ORDERING PROVIDER: BARRETT,JAMES JB 11 AMOD RENDERING PROVIDER: SMITH,CAROLE CJS 118 HEAD NURSE
RENDERING LOCATION: Select INPATIENT CPT CODE: 11001 DEBRIDE INFECTED SKIN ADD- ON Are you adding '11001' as a new INPATIENT CPT CODE? No// Y (Yes)

CPT RECORD DATE/TIME: DEC 5,2002@11:00 // REFERRING/ORDERING PROVIDER: BARRETT,JAMES RENDERING PROVIDER: SMITH,CAROLE// // Select CPT CODE: 98925// CPT CODE: 98925// CPT MODIFIER 1: PRIMARY DIAGNOSIS: 789.09// SECONDARY DIAGNOSIS 1: 789.30// SECONDARY DIAGNOSIS 2:

## PTF 701 Screen

Included in this patch DG\*5.3\*517 is the ability for the user to enter three (3) additional ICD-9 Diagnosis on the <701 Screen>. These additional ICD diagnoses will be used to support DRG calculations. They will not be transmitted to the Austin Automation Center and will not affect current data extracts from the PTF application.
